- f. At the first occurrence of a bat being thrown more than 6 feet from the batter box each team will receive a warning. After this warning batters will be called out on subsequent bats that are thrown and the ball declared dead.

BASE RUNNING:

- a. If a batter is hit by a pitch, it will be the umpires' discretion to award the player first base, if they made a reasonable attempt to avoid the pitch. If ball bounces no base awarded.
- b. Runners may advance only one base on a hit ball that remains in the infield. Runners may try to advance more than one base if the ball goes into the outfield. Runners must stop when the ball enters the pitching circle. Play is then called "dead".
- c. Stealing is permitted from second to third base only. The base runner must wait for the ball to cross the plate. NO Stealing on coach pitch. 2 Steals per inning allowed.
- d. One base awarded on an overthrow/error.
- e. Leading. A runner may leave the base only after the ball has crossed the plate. Each team will receive one (1) warning for players leaving the base early. Any runner leaving a base early will be called out after the warning.
- f. A pinch runner should be used for a catcher on base with 2 outs.

PITCHING:

- a. Peer pitch will be from a pitching rubber located 35' from the back end of home plate. The pitcher must have at least one foot in contact with the pitching rubber when starting a pitch.
- b. A player may pitch no more than two (2) consecutive innings or three (3) innings per game. One (1) pitch during an inning constitutes an inning pitched. Innings pitched do not have to be continuous. Coaches will confer about the # of innings if another pitcher is not available. Double Rostered players (excluding school team) will be limited in the scope of pitching to 2 innings at the 10U level.
- c. Once a pitcher has issued 4 balls to a batter, the pitcher will be temporarily removed from the mound (but remain in the pitcher's circle) for that at bat. Thereafter, the batting team's coach will become the pitcher for the remainder of the at bat for that batter. Batter's strikes count will remain the same as before the batters coach comes into pitch. The batter's strike count will continue while the batters coach pitches until the ball is put in play or batter strikes out. Umpires should not change the strike zone after the coach comes into pitch, strikes will still be called by the umpire and walks will continue to not be allowed. Coach pitch must be from the official 35 ft pitching distance, no closer. Pitcher will come back into play after the batter has hit or struck out.
- d. A pinch runner should be used for the catcher once there are two (2) outs in the inning. This allows for the catcher to suit-up and prevents delays in getting the next half-inning started. The pinch runner shall be the last player to have made out during the inning or any player not playing the field during that play.
